

## PROBLEMAS RÁPIDOS - SCHNELLE PROBLEME QUICK PROBLEMS - PROBLÈME RAPIDES

### BUEN CALCULISTA

Complete los siguientes arreglos de tal manera que se cumplan las operaciones, tanto horizontal como verticalmente.

$$\square \cdot \square \cdot \square = 84$$

$$\begin{array}{ccc} \square & \cdot & \square \\ \cdot & & \cdot \\ \square & \cdot & \square \end{array} = 48$$

$$\begin{array}{ccc} \square & \cdot & \square \\ \cdot & & \cdot \\ \square & \cdot & \square \\ \parallel & & \parallel \\ 64 & & 90 \end{array}$$

$$\square \cdot \square \cdot \square = 96$$

$$\begin{array}{ccc} \square & \cdot & \square \\ \cdot & & \cdot \\ \square & \cdot & \square \end{array} = 54$$

$$\begin{array}{ccc} \square & \cdot & \square \\ \cdot & & \cdot \\ \square & \cdot & \square \\ \parallel & & \parallel \\ 90 & & 72 \end{array}$$

$$\begin{array}{cccc} \boxed{10} & + & \square & + & \square & + & \boxed{8} & = & 34 \\ + & & + & & + & & + & & \end{array}$$

$$\begin{array}{cccc} \square & + & \boxed{12} & + & \boxed{15} & + & \square & = & 40 \\ + & & + & & + & & + & & \end{array}$$

$$\begin{array}{cccc} \square & + & \boxed{16} & + & \boxed{12} & + & \square & = & 37 \\ + & & + & & + & & + & & \end{array}$$

$$\begin{array}{cccc} \boxed{5} & + & \square & + & \square & + & \boxed{2} & = & 25 \\ \parallel & & \parallel & & \parallel & & \parallel & & \\ 19 & & 48 & & 40 & & 29 & & \end{array}$$

$$\square + \boxed{15} + \square + \boxed{3} = 25$$

$$\boxed{9} + \square + \boxed{7} + \square = 33$$

$$\boxed{14} + \square + \boxed{10} + \square = 38$$

$$\begin{array}{cccc} \square & + & \boxed{12} & + & \square & + & \boxed{16} & = & 40 \\ \parallel & & \parallel & & \parallel & & \parallel & & \\ 39 & & 39 & & 30 & & 38 & & \end{array}$$

$$\begin{array}{cccc} \boxed{16} & + & \square & + & \square & + & \boxed{6} & = & 40 \\ + & & + & & + & & + & & \end{array}$$

$$\begin{array}{cccc} \square & + & \boxed{13} & + & \square & + & \square & = & 25 \\ + & & + & & + & & + & & \end{array}$$

$$\begin{array}{cccc} \square & + & \square & + & \boxed{15} & + & \square & = & 32 \\ + & & + & & + & & + & & \end{array}$$

$$\begin{array}{cccc} \boxed{7} & + & \square & + & \square & + & \boxed{9} & = & 39 \\ \parallel & & \parallel & & \parallel & & \parallel & & \\ 34 & & 40 & & 39 & & 23 & & \end{array}$$

$$\square + \square + \boxed{11} + \square = 33$$

$$\square + \boxed{4} + \square + \boxed{3} = 20$$

$$\boxed{2} + \square + \boxed{13} + \square = 45$$

$$\begin{array}{cccc} \square & + & \boxed{10} & + & \square & + & \square & = & 38 \\ \parallel & & \parallel & & \parallel & & \parallel & & \\ 14 & & 42 & & 46 & & 34 & & \end{array}$$
